

## I PLEDGE TO...

**W**alk quietly through the watershed and listen.

**A**ppreciate animals' homes. A dead tree trunk may be their home.

**T**ake only pictures, leave only footprints.

**E**liminate litter. Leave the trails and streams clean.

**R**espect the wilderness and other people's property.

**S**tay on the trails.

**H**elp the streams stay healthy by not stomping on the banks.

**E**nter the water only with permission.

**D**on't scare the animals. Disturb wildlife as little as possible.

**P**ut things back where they came from once you look at them.

**L**isten and learn from your leader.

**E**xplore carefully and follow all safety rules.

**D**ress for the weather: jackets, boots/shoes and long pants.

**G**o to the bathroom before each fieldtrip, not there!

**E**njoy nature and protect your watershed.
